

MULTI V™
Air Conditioning System

Vitalise with **Good Air**

LG is committed to providing reliable and energy-efficient air conditioning solutions for both domestic and business applications so that you can enjoy more comfortable and sustainable surroundings.

Thanks to our innovative technology, our air conditioners are ideal to use in the home and deliver cost-effective solutions for the office environment.

At LG we pride ourselves in protecting the planet. The refrigerants and components used in our products are designed with the environment in mind so that the impact on the earth's delicate eco-system is reduced.

Comfortable living in a sustainable world is at the heart of every LG product.

Enjoy clean, quiet and comfortable
